9:00 am – 2:30 pm

Carolyn Gibbs

Do you find working with striped fabrics to be a fun experience or does this kind of fabric challenge you? Are you skilled at creating mitred corners using striped fabrics? **Carolyn Gibbs** is joining us from Sheffield, in the north of England. She will be sharing a “teaching” talk

showing how to achieve stunning effects in blocks and borders with striped fabrics, including tips on how to make them meet perfectly in mitred corners. Carolyn has been developing and teaching her patchwork and quilting designs for over twenty years. She specializes in traditional-style patchwork and loves the variety of blocks available and the “changed effect” with a different choice of layout or fabric. Carolyn is a regular presenter at the Festival of Quilts in Birmingham each year. She is a sought-after quilting teacher.
