Barbara Graceffa joins us from Boston to share her presentation

**A Walk Down "Cheat Street:"
Using Panels and Large Print
Fabric in Quilts.**

In this lecture Barbara will encourage us to look at fabric panels and large-scale florals and geometrics in a new way to create unique wall hangings, table linens, door banners, or bed-size quilts. She will share ideas for collage, cut 'n paste, fracture, embellish techniques, mosaic borders and more. Barbara has been honoured with four solo quilt exhibits in the past six years. She is a published author, and her newest book – *"If Picasso Was a Quilter"* is expected for publication in the near future.
